

TESOL Chile's 2nd International Conference

Changing Our Ways:

Making Classroom Innovation and Assessment Count
will take place from September 29-October 1, 2006
in Santiago, Chile at Universidad Alberto Hurtado
(metro stop Los Heroes)

The focus of the conference is on topics related to
**Creating and measuring progress in English learning
and teaching inside and outside the classroom.**

This TESOL Chile International Conference will offer you the opportunity
to meet and share with colleagues, to discover how assessment is key to a complete learning
experience, and to further explore global and local changes in the instruction of English and their
impact on social awareness and responsibility.

TESOL Chile is honored to have
H. Douglas Brown
as a principal presenter at the conference.

We are also featuring presentations by
Herbert Puchta

A wide variety of books, cds, software and other materials will be displayed and demonstrated by publishers
and distributors on both days of the conference. Take advantage of this excellent opportunity to examine
materials that may fill a need in your classroom.

**Come and enjoy the opportunities, relationships, and professional growth that this
TESOL Chile International Conference offers!**
